**Class requirements**

The class meets Monday, Wednesday and Friday from 1 to 1.50pm. Please be aware that the critical thinking required for successful completion of this course may not come naturally for many students. In-class exposure to model building, group exercises, applied problems and solutions via class attendance is the best way to become proficient in the application of microeconomic theory and the way economists think and solve problems.

**Craig and Savage (2014)** show that a ten percent increase in attendance is associated with a one percentage point improvement in final exam score for undergraduate industrial organization students, which could mean the difference between a grade of B-
